

Asia Online Panel

When was the last time you received authentic local feedback for your surveys to ensure the highest quality online data? Rakuten Insight does this every single time. We provide a rich blend of authentic Asian local insight and premium proprietary panels to clients who are looking for quick, affordable, and most of all, reliable Asian online samples.

We differentiate ourselves by staffing local native project managers to ensure your surveys and sampling plans are truly localized. Rakuten Insight's experienced native project managers will make sure your research solutions are delivered faster than ever before, without the usual compromise of quality. Rakuten Insight delivers quick, vaffordable, and most of all, reliable online data for your Asian research needs.

Available Countries

Optional Solutions

Hybrid:

Authentic local networks throughout Asia to provide not only online, but a mix of offline solutions (in-depth interviews, focus groups, central location testing, telephone interviews, CATI, etc.).

Translation Services:

Rakuten Insight's local staff provides strong native language coverage to ensure double and triple quality check measures.

Rakuten Insight's strong relations with trusted translation houses provide alternative solutions to a variety of global language translations.
